

# EXHIBIT CONSTRUCTION

WE PROVIDE YOU WITH A COMPREHENSIVE STAND CONSTRUCTION SERVICE BOTH FOR DOMESTIC AND INTERNATIONAL TRADE FAIRS AND EXHIBITIONS.

## WE CAN HELP YOU WITH...

- > selecting a trade fair
- > appropriate concept for taking part in a trade fair
- > communication with visitors
- > exhibit design
- > realising a trade fair exhibition
- > design and production of printed materials
- > comprehensive insurance for participation in domestic and international trade fairs

## WE HAVE EVERYTHING YOU NEED

- > our own designers
- > constructors
- > structural engineers and carpenters

Our project team prepare the materials, from the draft project to the project designs.

Our expert foremen prepare the technical designs. These are transformed into real items and displays in the workshop. We are capable of working with all materials. We make wooden, steel, aluminium or glass constructions. We have all necessary machinery and equipment, from manual tools to complex machinery.

We take care of all communication with the trade fair administration, construct the stand, provide support during the trade fair, dismantle the stand, and store the materials.
